

Dear Valued Customer,

Following up our last communication, we would like to update you about the current situation.

Yesterday night our Government has tightened the restriction all over the Territory. All main shops but Basic necessities (supermarkets, pharmacies, convenient stores, etc) ones are closed, but the manufacturing industries and transports are fully operating.

**Demak and S.E. Special Engines activities and productions are fully operating.**

Therefore, we are able to ship/receive materials and spare parts worldwide as usual.

Demakgroup Staff keeps on following rules in health and hygiene strictly, as already announced in our previous communications.

In a full spirit of transparency and professionalism, we will keep on sending you regular updates according to the development of the situation.

Demakgroup  
The Management
